

QUALITY POLICY

EP Industries Ltd shall establish and effectively maintain a quality assurance program based upon the requirements of BS EN ISO 9001:2008, quality management system. The Company's quality policy manual defines how the quality assurance program complies with these requirements and the elements for control used within the system.

Top Management shall document the prime objectives of the company, ensuring that they are measurable. These objectives shall ensure that the Company provides its customers with products and services that conform to contract and statutory requirements.

The Quality Management system shall ensure that all the objectives set by the Company will be achieved thus enabling the Company to prosper and maintain a motivated workforce.

Top Management shall provide sufficient resources to enable the efficient running and maintenance of the Quality system.

All elements of the quality system, including the quality objectives, shall be reviewed for suitability at defined intervals in order to continually improve the effectiveness of the quality management system

All employees are responsible for quality and not one individual. The Management Representative for the Quality System has the full authority and responsibility to ensure that this policy is understood, implemented and maintained at all levels in the organization.

All employees are trained in the elements of the Quality System relevant to their responsibilities and the objectives of the company. A copy of this policy statement is issued to all employees.

Signed: EDWIN PILSWORTH

Managing Director
